### Representation

### Instructions for use

This test report serves to demonstrate the airborne sound insulation of a building component.

Applicable for Germany.

$R_w$  corresponds to  $R_{w,F}$  for DIN 4109, Annex 1, Table 40

### Validity

The data and results given relate solely to the tested and described specimen.

Testing the sound insulation does not allow any statement to be made on further characteristics of the present construction regarding performance and quality.

### Notes on publication

The ift-Guidance Sheet "Conditions and Guidance for the Use of ift Test Documents" applies. The cover sheet can be used as abstract.
